*please note that lessons on Friday are 50 mins and the school day finishes earlier at 2:10pm

Lessons:

- You will study 3/4 A-Level subjects. There are often two teachers per subject
- Students studying 3 A-levels will also study a supplementary option. This is often an Extended Project Qualification.
- Core involves learning about study habits, mental health and progression
- Tutorial allows you to catch up with your tutor and set targets for your progress
- Frees are when no lessons are timetabled but you are expected to be doing homework, revising or wider reading

HOW TO *smash your A-levels*

- **Equipment** - You need to bring your own folders and books. We recommend paper that you can easily rip out to help with filing.
- **Organisation** - Begin organising your folder from the beginning and remember to date your work.
- **Free periods** - Use frees efficiently by completing work in the library. This will save you time after school and in the weekends.
- **Subjects** - If you can start with four A-levels, but drop one when you have made your decision to make the use of the extra free periods.
- **Support** - Speak to your teachers, subject mentors and senior students; they are always willing to help you!
- **Opportunities** - Make the most of the huge range of clubs and societies that we have here at Redcliffe

"The balance between lessons and free study periods"

"The atmosphere in the common room is comfortable and safe"

"THE FOOD!!!"

"MR SHAWI"

What do you love about
Redcliffe Sixth Form

"The support you can get throughout school"

"The lessons are enjoyable"

"The independence"

"The diversity of students and personalities"

"Start revising at the start of year 12!!!"

"Finding your way around school is a lot easier than you think, don't let it scare you"

"If you have four subjects, dropping one may be the better option and more stress relieving (but do it early!)"

"The workload is high so make sure to keep up or you will fall behind"

What I wished I had known when starting at

Redcliffe Sixth Form

"The year goes by quicker than you think"

"Start organising your folders from the start"

"If you are dropping a subject or choosing a supplement, make sure you get informed on the supplements and/or conversion to AS Levels"

"You have to try your best throughout the year otherwise you will do poorly"
