

Welcome to the weekly progression update. Here you will be able to find ideas and resources to get you started with your research. As Mr Shaw said in our youtube ‘assembly’ this week, you should be spending 1 hour a week thinking about your progression plan. Any questions, please email me isaacr@smrt.bristol.sch.uk. If you haven’t done so already, please follow redcliffeprogession on Instagram for more updates throughout the week.

5 top websites to this week

1. Our very own **SMRT progression site** - <https://sites.google.com/site/smrtprogression2/home>

This will continue to be updated with key information. Spend some time having a look at the areas that interest you – Uni, Apprenticeship or GAP year?

2. Have a go at this **personality test** and start thinking about your strengths and weakness -

<https://www.16personalities.com/>

3. Complete a **short quiz** which will direct you to specific careers and key information

<https://www.sortyourfuture.com/>

4. Thinking about **University** – read these 10 things to consider when comparing courses

<https://www.theuniguide.co.uk/advice/choosing-a-course/top-things-to-look-for-when-comparing-uni-courses>

5. Thinking about an **Apprenticeship** – this website has some great info including live vacancies.

<https://amazingapprenticeships.com/about-ask/> Although too early to apply now, it will give you an idea of what will be available this time next year <https://amazingapprenticeships.com/vacancies/>

You need to keep an electronic log of your research over the coming weeks – I would suggest doing this in a google doc so you can easily update and access. Idea below to start researching different Universities using www.ucas.com

Why not share this with your parents and tutor so they can be involved in your progress 😊

University	City or Campus?	Course interested in	Student satisfaction	Entry requirements	Other
Birmingham	Campus (but in a city)	Geography	96%	AAB	BA or BSc? Do more research into the difference
