# Music Department

Our Music Department, situated on B Floor in the main school, is a thriving and very friendly community which welcomes all instrumentalists and singers of any ability to join in our various activities.

Our department runs a wide variety of ensembles and choirs for students of all instruments and abilities, and often perform in concerts both locally and on music tours abroad, so why not come along and try out something new?

In addition, individual tuition for a musical instrument or singing can be organised!

Our choir and orchestra welcomes students of all ages and abilities to play fun repertoire, often arrangements by our own staff and students, and, with its rehearsals on Friday lunchtimes, is a lovely way to end the week. A chamber orchestra, for more advanced players, will play more challenging repertoire and will rehearse as necessary for specific events.

Advanced players are encouraged to also be involved in the main orchestra, but please get in touch if you are interested in playing in a smaller orchestral ensemble.

The choir rehearses once a week and performs in a variety of concerts, school Church services and other occasions, including joint-school concerts and music tours. For a more informal singing style, the gospel choir provides a fun and casual atmosphere for singing and also performs in school functions and their own concerts.

Morning instrument ensembles for flute, clarinet, saxophone and brass instrumentalists welcome all players of any ability, and are run by instrument teachers.

If you are interested in getting involved in the music department and would like to find out more, you can talk to music staff.

# **Model UN**

## **Thursdays After School**

### **In the Common Room**

Model UN simulates the General Assembly of the United Nations.

We tackle real world global issues by writing 'resolutions' to help solve the problem. These are submitted and then debated, with students arguing based on the ideology of the nations they represent.

Over the course of a term scenarios develop based on the policies enacted, requiring countries to adapt based on new information.

This results in high-quality and structured debate on issues ranging from those strongly grounded in reality such as Oil Crisis in the Middel East, to historic committees on the response to the Chernobyl disaster, to more 'out-there' issues such first as alien contact.

While the structure and language of a session may seem daunting at first, it's easy to get in to. As a club we're doing out best to make it as accessible as possible. Everyone in the club wants to see new members because new perspectives and ideas make MUN better. So, we're happy to help where possible!

There is no sign up required, just find us in the Common Room afterschool on a Thursday and we'll give you a country :)

At Model UN we debate real world geopolitical issues as the countries we represent. It's a great way to learn about the world of geopolitics, improve your skills of critical thinking, debate, research, and public speaking, while also being a part of the community it provides.

As the largest club at SMRT, there's a clear social aspect to the club as well. The club frequently has people join throughout the year, which has resulted in an atmosphere of being tight nit while also super welcoming to new members.

MUN blends accurate debate with creative problem solving in a relaxed environment.

It's a perfect super-curricular for a personal statement while also providing the opportunities to compete against other schools at conferences.

Most relatable for students with an interest in politics, geography, history, sociology and law, but all subjects and abilities are welcome. Many participants do none of the adjacent subjects!
