

Assessment	Details	How is this assessment marked, moderated and feedback to students?
1	Marking of the programming project for the Entry Level Computer Science qualification.	Project marked against the OCR criteria/mark scheme. Moderated within department. Graded either 1. 2 or 3 for the Entry level Qualification.
2	Test results for the two Entry level computer systems unit tests.	30 minute tests completed within lessons, marked against the OCR mark scheme. Moderated within department. Graded either 1. 2 or 3 for the Entry level Qualification.
3	Test results for the two Entry level Computational Thinking unit tests.	30 minute tests completed within lessons, marked against the OCR mark scheme. Moderated within department. Graded either 1. 2 or 3 for the Entry level Qualification
Homework	How is homework used to support learning?	How is homework marked and feedback to students
	Homework will come in several formats. It will either be research to help with planning and development of project work, or practising skills learnt in lessons e.g. Python programming or may be a written activity that links to the topic covered in lesson.	This will depend on the type of homework. Feedback may be written or verbal.
In class and in books	What strategies are used to deliver effective feedback and assessment to students during lessons?	What marking and feedback would we expect to see in an exercise book or folder in this subject?
Any other information		

Assessment	Details	How is this assessment marked, moderated and feedback to students?
1	Systems Architecture end of topic test.	Marked by class teacher against the mark scheme. Moderated with other KS4 teachers.
2	Memory and Storage end of topic test Programming review Network topologies, protocols etc. end of topic test.	Marked by class teacher against the mark scheme. Moderated with other KS4 teachers.
3	Network Security end of topic test Year 10 end of year exams	Marked by class teacher against the mark scheme. Moderated with other KS4 teachers.
Homework	How is homework used to support learning?	How is homework marked and feedback to students
	Homework will be predominantly 'flipped learning' watching videos of the different areas of the particular unit we are working on. Using the Cornell note taking method for making notes on the videos. Students are issued with books to complete notes. This are checked and rated by the teacher	This will depend on the type of homework. Feedback may be written or verbal.
In class and in books	What strategies are used to deliver effective feedback and assessment to students during lessons?	What marking and feedback would we expect to see in an exercise book or folder in this subject?
		Students complete workbooks for each topic and don't have exercise books. They will also build up notes as explained in the homework section. These are all checked by the teacher. Marking and feedback will be given on all written tests and assessments.
